DETAILED ACTION

Response to Amendment

- The reply filed December 17, 2009, has been received and entered. Claims 57-74 are pending.

Allowable Subject Matter

Claims 57-73 are allowed. The following is an Examiner's statement of reasons for allowance:

Independent **claim 57** of the present application teaches, for example, A method of data protecting symbol types transmitted across a communication medium comprising encoding a symbol comprising a plurality of bits, wherein a most significant bit and a least significant bit of said symbol indicate at least a type of said symbol; and transmitting the symbol across the communication medium; wherein said encoding protects symbol types, as a single byte error cannot affect both said most significant bit and said least significant bit of said symbol.

Particularly, the prior art of record taken singly or in combination fail to teach, anticipate, suggest, or render obvious the foregoing limitations “*a plurality of bits, wherein a most significant bit and a least significant bit of said symbol indicate at least a type of said symbol; and transmitting the symbol across the communication medium; wherein said encoding protects symbol types, as a single byte error cannot affect both said most significant bit and said least significant bit of said symbol*”. Consequently, claim 57 is allowed over the prior arts.

Independent **claim 68** includes similar limitations of independent claim 57 and therefore are allowed for similar reasons.

Dependent claims depend from allowable independent claims and inherently include limitations therein and therefore are allowed as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
